

Like no other

The garment industry is a pretty rough place. It's a polluting, low-cost driven business. Changing that is not easy. Almost impossible according to many.

But you know what? Impossible is just a word until you give it a shot. That's what we did at Stanley/Stella. In 2012 we started making premium, sustainable t-shirts. Because we believe it can be done.

And today that contrarian, value-driven attitude is more alive and kicking than ever. We apply it in everything we do. And no, we can't fix everything, and we realise the job is never done, but we do promise to give it our all, every day. By doing things differently. Like no other.

Because that's what we are.

A global brand should have eyes everywhere.

We have our own spotters to check trends internationally, so we can design the right products for every region and every market.

Details are not a detail. They're essential.

No loose threads, perfect stitch length, double stitching to keep your piece in shape. Details matter. If an embroidery can't be perfectly applied with the lining in place, we insert an invisible secret zip so it can be done right. The relentless pursuit of perfection.

How looking good can be sustainable.

If a t-shirt is well designed, you will wear it twice as long, which will reduce your footprint considerably.

It doesn't fit until it fits.

Our designers and developers work with professional fitting mannequins and real people to perfect every piece, ensuring no design is approved without real-world testing.

Transform a blank canvas into a premium piece, that's what design does. →
Tamsin Cook and her team refine over and over until every piece is absolutely perfect.

Design Like no other

—
Perfection is our standard. Our design team never settles for less.

Creating the perfect canvas.

Decoration starts way before the actual decoration. Grooming the cotton and getting the fabric just right. Just good is not good enough.

Being a partner works better than being a supplier.

We collaborate closely with our partners. We listen to their concerns and we make sure we know their trade as well as they do, because they need to be able to rely on our advice.

Try. Re-try. Test. Re-test. Repeat.

Our dedicated team of five decoration experts never stops innovating: technology evolves, they test, try, refine, improve over and over again to get the perfect print or embroidery.

Céline Dufour and her team perfect each piece for printing and → embroidery: they research, test endlessly, listen to partners and become their trusted decoration advisers.

Decoration

Like no other

—

The perfect blank canvas, constantly re-fined by our innovative decoration test lab.

Starting from the very beginning.

Our engagement starts with the sourcing of the raw materials. By sourcing 100% organic cotton, we minimise our environmental footprint. Naturalness guides our decisions.

Waste unwasted.

We recycle our cotton fabric cutting waste, shredding it into yarn and blending it (50/50) with new virgin organic fibre to make new perfect fabric. In 2023, we recycled 175 tonnes of cotton. We also address plastic waste by only using recycled polyester in our outerwear. Waste becomes a resource when recycled.

Taking care of the people who take care of the cotton.

We want the people who work with us to appreciate working with us. Hand in hand with our partners, we strive to bring more positive impact for the workers and their communities. We care and are committed to making positive, responsible changes.

Reducing our footprint step by step by step.

2024 marks the launch of our first-ever decarbonisation plan aiming to reduce carbon emissions by 30% by 2030. It's a challenging task, but with our partners along the value chain, we're committed to making it happen.

Caring about our values is sharing our values.

We collaborate with like-minded farmer organisations, select partner factories and dealers who share our values and commitment to sustainability. Together, we can drive change faster.

At Stanley/Stella, responsibility to the planet and people is in our DNA. Michel → Hublet and his Sustainability team take action, steadily reducing our footprint across the entire value chain while providing a positive impact to the workers.

Sustainability

Like no other

—

Less talk, more action.

Working our way back to the source.

We've partnered with farmer organisations to help farmers switch to organic and grow the best quality cotton from carefully selected seeds.

There's no such thing as slightly organic.

GOTS is a solid sustainability label, so we made sure to get it. But we go beyond certification. We only source cotton from countries where we can trace the cotton's origin and work with partners we trust. This is our way to secure the organic integrity of the cotton.

Everything has to be just right. Like, totally.

Premium garments require the finest cotton, and our experts ensure it's mature, strong, pure, and harvested at the perfect time, just like fruit.

You see it, you want to touch it. You touch it, you want to wear it.

It's that undeniable, unique 'je ne sais quoi' of a Stanley/Stella piece. That contemporary look and incredible natural handfeel. Why settle for looking average when you can look great?

Creating the best apparel starts at the source. Our buyer, Anil Konan, works → directly with cotton farmers, selecting only the highest-quality organic cotton to meet our exceptional standards.

A man with short dark hair and a light beard is smiling slightly, looking towards the camera. He is wearing a white, long-sleeved button-down shirt. The background is a bright, outdoor setting with a clear blue sky and some blurred greenery, suggesting a field or farm. The lighting is soft and natural, coming from the side, highlighting his features.

Cotton

Like no other

—
Sourcing only the world's
finest 100% organic cotton.

Great partnership deserves a great service.

We strive to deliver top-quality products and believe our service to our partners should match that same standard. Our commitment is to provide an unmatched customer experience, continuously raising the bar and refining every aspect of our collaboration. We focus on long-term relationships, prioritising partner success as the key to our own.

When you know each other, you work better together.

We believe strong relationships are the foundation of successful collaboration. By sharing a common vision and journey, we can achieve more together. At Stanley/Stella, we act as proactive partners and trusted advisers, helping our partners create greater value together.

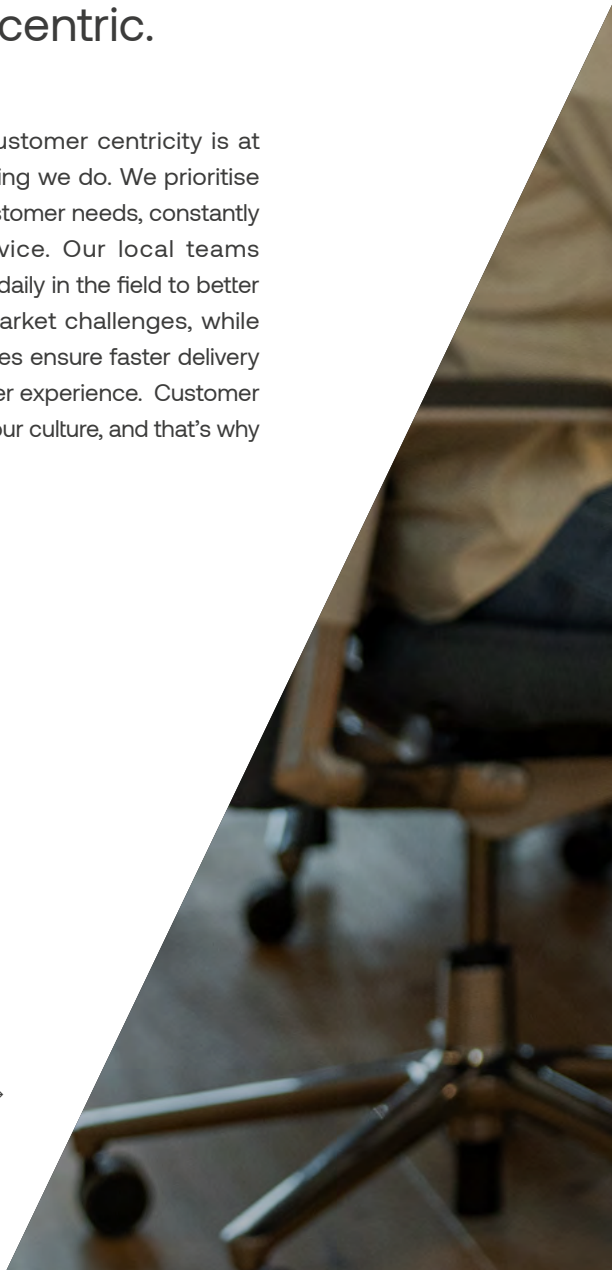

Dealer support. For real.

Our support takes many shapes: expert advice from our decoration specialists, our customer care or our sales team, as well as guidance from our trade marketers to help partners design outstanding showrooms. Our Communications team provides the tools to drive their growth, empowering them to elevate their business.

Radically customer centric.

At Stanley/Stella, customer centricity is at the heart of everything we do. We prioritise both partner and customer needs, constantly improving our service. Our local teams across Europe work daily in the field to better understand local market challenges, while expanded warehouses ensure faster delivery and a better customer experience. Customer excellence is part of our culture, and that's why it works.

Believing in service is one thing; pushing for customer excellence every day → is another. That's what Massimo and all Stanley/Stella teams do, ensuring our service is as smooth as our cotton.

A man in a white t-shirt stands in an office with his arms crossed, smiling slightly. He is wearing a beaded bracelet on his right wrist. In the background, another person is visible at a desk, and there are computer monitors and office equipment. The scene is brightly lit, suggesting a modern, open-plan office environment.

Customer excellence

Like no other

Create your signature look

Your identity, your values, your vision – our SS25 collection lets you bring them to life. This season, we're introducing new and revitalised styles designed especially to meet – and exceed – market needs. From formal corporate and hospitality settings to more casual spaces like clubs, associations and events, there is an SS25 style for every purpose.

Leading the way are our extended polo offer and our new range of premium shirts. Fresh, modern styles with an exceptional look and handfeel. SS25 also brings a refreshed knitwear collection, featuring uplifted timeless styles and an inviting new colour palette.

With only the finest 100% organic cotton and recycled materials, and a renewed focus on colour consistency and alignment, this collection is the perfect canvas for creating stylish signature looks.

SS25

More than a polo

A true style icon, the classic polo is known for its versatility. But not all polos are equal. With our extended range, we're raising standards yet again. New styles, even more performant fabrics, and better decoration results than ever.

Star of the show is our new lighter-weight Coaster polo, the perfect gender-fitted alternative to the unisex Prepster 2.0. While the new unisex Coaster Vintage offers the same lighter weight with a unique pre-worn look.

Like the Prepster 2.0, these two new styles are made from panel-washed 100% organic cotton for a softer handfeel and better shrinkage control. And with the best piqué on the market, excellent decoration results are guaranteed.

Unleash your style with shirts

A well-crafted shirt always makes a great impression, whatever the occasion or setting. Our new premium shirt range unleashes four standout styles that can be dressed up or down, worn simply or layered.

Crafted with meticulous attention to detail and made from the finest 100% organic cotton, these shirts combine a fresh, modern style with a premium look and feel. And with gender-fitted options, everyone can find their perfect fit and look their best.

Each style has been thoughtfully designed to maximise decoration options and ensure the best possible surface for any technique.

Next-level knitwear

Alongside our polos and shirts, our knitwear collection makes a statement with new and uplifted styles, enhanced decoration possibilities, and an even stronger colour offering.

Evolving with market needs, we've modernised the fits of some of our popular styles. Like our oversized Blaster 2.0 t-shirt, with its new, trendier proportions. Or our women's and men's tank tops, featuring updated silhouettes and slightly heavier fabrics that are even better for decoration.

Colour alignment between our unisex and women's styles has also been enhanced. And fresh new SS25 colours on lots of our best-sellers bring exciting opportunities.

The ultimate canvas for decoration

When developing a new collection, we keep decoration in mind at every stage of the process – from the fabrics we use to our design choices. SS25 builds on this focus, making each piece a perfect canvas for standout customisation.

All our polos are made with panel-washed 100% organic cotton for better shrinkage control. That means a softer handfeel and decoration that stays vibrant, wash after wash.

For our new shirt range, we chose sturdier fabrics ideal for any decoration technique, including embroidery. And with no back pleat on our Worker and Denim shirts, there's even more space for decoration.

Sustainable down to the final detail

We're renowned for using the finest fabrics made from organic and recycled materials. But our commitment to offering sustainable garments doesn't stop there – it's present in every detail of every SS25 style.

From the recycled polyester thread used for each stitch, to the buttons on our polos and shirts that are made from recycled materials. We also carefully consider how our garments are packaged. Instead of collar rings and plastic 'butterflies', our shirts have a small support made from recycled card. This keeps the collar in perfect shape during transport and minimises waste .

By paying attention to even the smallest details, we can offer a truly sustainable choice, like no other.

Colour you can count on

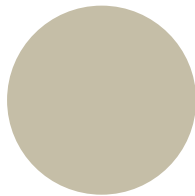

We know how important colour is when creating custom garments to match an established visual identity. Which is why we take colour so seriously.

Our colour offering is carefully curated to satisfy a broad range of needs. From muted neutrals and bolder classics to on-trend colours that excite and inspire – like the seven fresh new hues that SS25 brings.

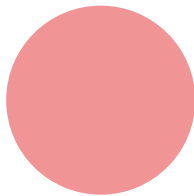

And with even better colour consistency and alignment across our collections, it's easier than ever to create a harmonious signature look, even when working with different styles.

Time to make a statement with SS25!

—

Discover versatile styles that combine function and flair with a premium look and feel – perfect for creating a signature look like no other!

Visit www.stanleystella.com for more information on our products, the SS25 collection, and Official Dealer communication tools.

We believe that the textile and garment industry can act in a responsible way and care about people, the planet, and society. We don't need to tell you more about the reasons why we're fully committed to sourcing organic cotton, reducing our carbon footprint or urging our suppliers to pay a living wage to their workers because we believe these points are important to you too.

We thank you for joining us on our journey, and for sharing your support, enthusiasm and ideas. If you'd like to find out more about our path to sustainability or get involved.
